VIAIR 450P Automatic Function Portable Compressor Reviews

The VIAIR 450P is an automated and portable compressor with more power than competition has to offer. This however is not all. Here is a look at some of the features that make it a great purchase.

With over 80% of the customers who have purchased this product on [Amazon.com](#) being totally satisfied with it, there is no reason why you should not check it out. It delivers what it claims to offer and so much more.

Above all, it saves on time which is the most valuable commodity to the modern person. With an average customer grading as great, it is definitely a worthwhile investment.

Outstanding performance

- With a PTFE piston ring accompanied by a gearless and direct drive motor, the **VIAIR 450P** is able to deliver so much with so little time.
- It can operate for up to 40minutes without the need to cool off hence offering you more time to inflate the tires that need it
- It takes the only 7minutes to inflate a 35 by 12.5 inches tire from zero to 30PSI whereas to double the pressure in a 35 by 12.5 inches tire from 15 to 30PSI takes less than 5minutes.

Automated controls

The maximum air pressure **VIAIR 450P** can achieve is 150PSI thanks to the magnetic 12V motor powering it. For safety however, this is usually not reached. An automatic switch controls the functioning of this compressor. When the pressure reaches 145PSI, the switch automatically shuts the equipment down.

When this pressure falls to 120PSI, the switch restarts the compressor once again. The automatic shut down system also comes in handy when changing from one tire to the other. The compressor has a sensor that automatically shuts it down when not actively filling tires prolonging battery life.

Ease of use

The Deluxe carry bag it comes with will allow you ease in transportation. The aluminum anti-vibrating tray makes handling much easier and so does the material's resistance to dust and moisture.

The 25ft hose with heat shield allows you to fill all the tires of your car without the need to move the compressor around while the 3-piece inflation tips kit allows you to refill easily no matter what the pin type on your tires is.

It is an oil-free design hence no risk of spills but rather uses batteries and is equipped with heavy-duty dual battery clamps and a 40-amp inline fuse.

Pros

- It is easy to use and maintain
- Powerful motor

- Has a long hose for ease of manipulation
- Automatic shutdown to prevent excessive pressure
- Fast in action hence saves on time
- Noise-free operation

Cons

- Most people consider the price tag on this to be rather expensive. All of them however agree that the effectiveness of the machine makes it worth every cent spend on it.

Conclusion

The **VIAIR 450P** is every car owner's best companion. It will help you inflate your tires fast and with reliable performance. With an automatic shut-down, you need not worry about overheating, battery wastage or excessive pressure build-up.

★★★★★ awesome!

Geez, this compressor is a beast, and it doesn't get too hot. I use it to fill my 285/70/17 tires, and it is very quick. [Read more](#)
